

LUCIA SABATINI / RIFLESSI

Solo Art Exhibition

POSEIDON OF PAROS RESORT & SPA HOTEL

Golden Beach, Paros

Opening: August 4, 2017 at 20:00

As part of the artistic activities of **Art Space / Studio 265** in Paros, Lucia Sabatini's solo painting exhibition titled "**Riflessi**" will be hosted by **Poseidon of Paros Resort & Spa Hotel** opening on **Friday, August 4th**.

This event will be co-hosted by Life Coach and Fashion Blogger **Anna Kontoleon** and Curator and Art Historian **Iris Kritikou**.

"Lucia Sabatini's work draws its raw materials from the primordial diachronic components of the Mediterranean. Owing their inspiration both to her birth place Italy and to her adopted homeland, Greece, her paintings balance with knowledge and grace between the eclectic composition of the dense natural patterns of her surroundings and the dynamic abstract horizontal and vertical compositions where the line interacts with color, shape and shadow.

Tender flower stems and anxious tree trunks, soft velvet leaves and persistent rain drops, rugged coastlines and silver Aegean desert islands are featured through explosive colors and aniconic futuristic outlines, with fleeting musical notes and nightly fireworks, with rapid curves and anxious spirals that compile the feverish rhythm and narrate the exciting inner psyche of a magical universe.

Sabatini's "Reflections", dreamlike and, at the same time, intensely modern, encourage the spectator's gaze to wander and search, to wonder and explore, to sink and re-emerge into the glorious multiplicity of this wondrous adventure that is Painting," writes Art Historian Iris Kritikou

Lucia Sabatini was born in Empoli, Florence. She studied Painting and Fine Arts (maestro d'arte, diploma di magistero sezione decorazione pittorica, presso istituto di arte di Firenze) in the Accademia di Belle Arti in Florence.

She has participated in numerous group exhibitions both in Italy and in Greece. Her works belong to private collections in Greece and abroad.

The Art Space / Studio 265 art gallery was founded by the office of architects **Vazaios Petropoulos, Dimitris Kareli, Nikos Hatzidimos**, and the civil engineer **Christos Smyrni** and has a harmonious coexistence of architecture and art in a two-story

modern aesthetic space, where new ideas and proposals are hosted to build and expand on dreams through art.

The Art Space / Studio 265 cultural events aim to highlight the wonderful history, unparalleled natural beauty, light and the magic of Paros with the power of art and a direct link to tourism and culture.
